Profile

Full Stack Software Engineer with experience in JavaScript, React.js, Node.js, Express.js, TypeScript, Unit Testing, HTML, CSS, and a background in legal and banking sectors. I enjoy dealing with complex and original ideas while working with like-minded people in a creative and stimulating environment. Always learning and building projects with new tools and languages. When not coding, I enjoy connecting with people and exploring the surroundings with my camera.

TECHNICAL SKILLS

JavaScript, React.js, Redux, Node.js, Express.js, APIs, Unit Testing, MongoDB, SQL, Git, Module Bundlers, Package Managers, AWS, Google Cloud, Kafka Message Broker, CSS, Handlerbars.js, Pug.js, HTML

EMPLOYMENT HISTORY

Oct 2019 – Present   **Mid Full Stack Software Engineer at Reach Plc – London**
- Increased company revenue by introducing a contribution scheme. Built it as micro-service using Node.js for the backend and vanilla JavaScript, CSS and HTML for the frontend. Coupled with custom email service using Node.js and AWS, and third party API such as Stripe
- Achieved over 5 million of user registrations by building a custom user dashboard in React.js, CSS Modules, TypeScript, Webpack, and third party APIs for user identity and access management
- Delivered 20% company profit rise by offering a custom e-commerce experience to our users. Project built in Express.js for the backend and Handlebars for server-side rendering as well as third party APIs to handle payments.
- Managed several projects for more than 80 digital publications (including Mirror, OK!, Daily Express). Employed JavaScript, SQL, Unit Testing (Jest, MochaJS), Pug templates, while working with different dev teams across the company

Sep 2019 – Oct 2019   **Junior Full Stack Web Developer at AtomInvest – London**
- Developed and maintained a full stack app (NodeJs and React)
- Improved usability by building a Dashboard where users could track relevant changes and details. I made use of React.js for the fronted, Express.js for the backend, Socket.io for push notifications, MongoDB for data storage
- Strengthen my ability to act upon user requests while communicating efficiently with my team and meeting tight deadlines

Feb 2018 – Feb 2019   **Business Analyst at Barclays Bank UK – London**
- I supported clients with their day-to-day transactions, matching their needs with Barclays' main financial services such as transferring funds, exchanging currencies, borrowing capital, and so on
- I enhanced my social intelligence by developing real relationships with customers, premier and business clients in order to gain their trust and confidence and to get a clear picture of their individual needs

Jun 2017 – Oct 2018   **NovoVape Ltd, CEO & Co-founder – London**

- I co-founded NovoVape Ltd, an e-commerce provider of e-cigarettes, opening in Italy and in the UK
- I created the website, dealing with design and web development. I was able to work on my own as well as leading teams of experts on the matter while dealing with both suppliers and customers
- I drafted NovoVape's business plan and contributed to its USP, executive summary, market strategy and cash-flow

Feb 2017 – Mar 2017   **Fortune Law (Commercial Solicitor), Paralegal – London**

- Expanded my research abilities by working on different legal topics including banking, contract, and insolvency
- Improved attention to detail by drafting advice letters and emails to both clients and partners
- Ameliorated my communication skills by taking calls from both existing and potential clients and log the enquiries onto our internal databases in a clear manner

EDUCATION

Mar 2019 – June 2019   **Flatiron School, London(UK) – In-person Software Engineering Bootcamp**

Jan 2017 – Apr 2018   **BPP Law School, London (UK) – Graduate Diploma in Law (GDL)**

Nov 2009 – Oct 2015   **S.U.N. University of Naples – Integrated Master's Degree.** Final grade 103/110
